SERVICE BULLETIN

Ride Manufacturer: Shaller Enjuneeering	Affected Production Dates: 1988 thru 1996
Ride Name: Kiddie Kart	Affected Serial Nos.: 520-524, 551-554, 652, 1212-1213, 1220-1222, 1229, 1620-1624, 1708, 1971-1975, 1990-1995, 2184, 2479-2483, 2542-2545
Model Number: KK follows serial number (xxxxKK)	

Abstract of Issue:

It has been reported that at least one driver of a Kiddie Kart has had their elbow come in contact with either the drive sprocket or the rear tire while driving the Kiddie Kart resulting in the laceration of the elbow.

Reason for Release:

The Shaller Kiddie Karts produced from sometime in 1996 to the present have rear fenders that would most likely prevent a driver from coming in contact with the drive sprocket or rear tire.

Action To Be Taken: (Inspection, Modification, Replacement, NDT, Order Parts, Manual Revision, Procedural Change, etc.)

It is highly recommended that rear fenders be added to all Kiddie Karts that did not have the rear fenders installed at time of receipt of the GoKarts. There are several different configurations of the GoKarts depending on vintage, i.e., side step plates or not, and it is recommended that the track contact Shaller Enjuneeering to figure out the best method of retrofit of fenders to their Kiddie Kart.
