TECHNICAL BULLETIN - JUNE 1999

185. Miami Trip Safety Related Bulletin

We have received a copy, from Nottingham (UK) Ltd, of a "Safety Related Bulletin" relating to Miami Trip rides manufactured by Fairmatt Ltd, Eurofab Ltd, or Nottingham (UK) Ltd. The latter is the current manufacturer of this design.

The bulletin deals with two separate subjects, neither of which stems from any accident, but the manufacturer wishes to draw attention to the recommendations.

The first subject concerns a component failure which, we are told, has not happened in a dangerous way.

Secondly, the manufacturer has received an adverse report of a potential shear trap from an Inspection Body. Although there are other inspection bodies who have reached the conclusion that this shear trap is not a significant risk, the manufacturer is offering an additional guard to those who might be concerned.

For copies of the Safety Related Bulletin, please make direct contact with the manufacturer :-

Nottingham (UK) Ltd
Crompton Road
Ilkeston
Derby
DE7 4BG
England
